

Dog ice cream

to make yourself

Banana ice cream

- 1 overripe banana
- 100 g cottage cheese

Ice cream with watermelon

- 100 g watermelon
- 100 g natural yogurt

Blueberry ice cream

- 100 g blueberries
- 100 g quark

Mix all ingredients and fill into ice cube trays. Put a small wooden stick or spoon in each ice cube so that you can feed it to the dog. For larger portions, you can also freeze the ice cream in muffin tins.

Important: Offer the dog the ice cream in small portions and make sure that he only swallows small pieces at a time.
